

1. Collection of video lectures that are based on the study materials provided at: <http://www.spcmc.ac.in/lecture-notes-study-materials-for-even-semester-april-july-2021-cema/>

Semester 2:

Video Lecture-1 is available [here](#). (Elimination versus substitution; based on the study material on elimination-substitution interplay, SM-7 of elimination lecture series, for the SM refer to the link provided at the top of the page). (Uploaded on 14.07.21).

Video Lecture-2 is available [here](#). (Phenol-keto tautomerization, SM-4 of tautomerization lecture series, for the SM refer to the link provided at the top of the page). (Uploaded on 16.07.21).

Video Lecture-3 is available [here](#). (Nitro-*aci* tautomerism, imine-enamine tautomerism, tautomerism in diazoamino compounds, nitroso-oxime tautomerism, SM-5 of tautomerization lecture series, for the SM refer to the link provided at the top of the page). (Uploaded on 18.07.21).

Video Lecture-4, part-1 is available [here](#) and part-2 is available [here](#). (Pyrolytic *syn*-elimination; based on the study material on pyrolytic eliminations, SM-8 of elimination lecture series, for the SM refer to the link provided at the top of the page). (Uploaded on 21.07.21).

Video Lecture-5 is available [here](#) (Ring-chain tautomerism; based on the study material on ring-chain tautomerism, SM-6 of elimination lecture series, for the SM refer to the link provided at the top of the page). (Uploaded on 23.07.21).
