## Publications

Mind, Imagination and Classical Music

Adsorptive removal of Pb (II) ion on Arachis hypogaea's shell: Batch Experiments, statistical, and GA modeling

Uses of Copper: Some scientific explanation of traditional belief

Pb (II) adsorption from aqueous solution by nutshells, green adsorbent: Adsorption studies, regeneration studies, scale-up design, its effect on biological indicator and MLR

Adsorptive removal of Cr(VI) from aqueous solution: kinetic, isotherm, thermodynamics, toxicity, scale-up design, and GA modeling

# Abhishek Das

Asst. Prof. (College App.)

Greater Kolkata Area

## Experience

St.Paul's CM College

SACT Catg-I

August 2007 - Present (17 years 2 months)

Calcutta University

Research Fellow, Dept. of Chemical Eng.

May 2013 - Present (11 years 5 months)

Seacraft Beverages Pvt. Ltd.

Consultant Microbiologist

June 2015 - November 2022 (7 years 6 months)

Arora-Matthey Limited

R&D Chief Consultant

October 2018 - October 2019 (1 year 1 month)

West Bengal, India

Rebounz-Embrace Hope

Research Scientist

February 2016 - November 2018 (2 years 10 months)

Rebounz is an interactive mobile app that provides individualized, situation-specific solutions to support and guide you through life's most stressful events. We've all experienced prolonged stresses, either through our own personal experiences or through the experiences of those close to us.

Even with compassion and support from those around you, coping with these situations can seem impossible. Sometimes you may feel hopeless and alone in your pain. Maybe you lack someone to confide in, feel like you're bothering people with your problem, or worry about being judged by others if you open up.

What if you had 24-7 access to an emotional support system that provided immediate and long-term solutions to help you through your situation?

Providing non-judgmental feedback. Easing suffering. Hastening healing.

Empowering you as a champion of your own well-being. Coaching you toward brighter, better days ahead.

Foretellex LLC

Research Associate

January 2014 - December 2014 (1 year)

Foretellex envisions a future where unforeseen catastrophic circumstances don't make a business insolvent. We have built a robust risk system that provides unparalleled endurance.

IPGMER, SSKM Hospital

Research Fellow

May 2008 - June 2010 (2 years 2 months)

---

## Education

University of Calcutta, Ballygunge Sc Campus

Master's Degree, Microbiology · (2005 - 2007)

Acharya Prafulla Chandra College

Bachelor of Science (B.Sc.), Microbiology

Birati High School

Higher Secondary Education, Science
