

PARENTS -TEACHERS MEETING FEEDBACK EVALUATION- 2019-2025

Parents Teachers meeting serve as a platform for open communication, collaboration, and shared understanding between home and school. These meetings help parents to stay informed about a child's academic progress in class and their behavioural issues. During the Parents -Teachers meetings, a well collated feedback form is collected from parents to assess their understanding and knowledge of the administrative responsibilities of the college, students' performance in classroom and their extracurricular activities inside the campus. The feedback forms help provide a platform for teachers and administration to receive feedback and identify areas for improvement.
