

## **Annual Alumni Webinar, 2023**

The second Webinar of the Alumni group of the Department of Economics was held on **26th November, 2023, at 7.00 p.m.**, IST via Google Meet platform on **Contemporary Issues in Economics**. This session was part of the department's ongoing Alumni Webinar Series designed to foster academic exchange between current students and the successful graduates of the college. The first speaker was **Dr. Krisnendu Maji** (2004-2007 batch of SPCMC), a distinguished alumnus and accomplished academic, presently **Assistant Professor of Economics in Goenka College of Commerce and Business Administration, Kolkata**. His topic was **An Introduction to Dynamic Stochastic General Equilibrium Models**. His lecture offered participants a structured and analytically rich introduction to DSGE models - one of the cornerstones of modern macroeconomic research and policy analysis.

The second speaker of the day was **Mr. Debyeet Mukherjee** (2015-2018 batch of SPCMC) an esteemed alumnus and seasoned professional in the banking sector, presently engaged as **ESG Manager at IDFC First Bank, Bandra Kurla Complex, Mumbai**. - offered a timely and insightful session on **Green Finance and the Impact of Climate Change on Banking Regulations**. Green Finance - defined as financial investments flowing into sustainable development projects and initiatives - has become a focal point for regulators. Mr. Mukherjee explored emerging instruments like green bonds, climate linked loans and ESG (Environment, Social and Governance) scoring mechanisms. For students, the message was equally clear - careers in finance will increasingly demand fluency not only in numbers - but in climate models, regulatory policy and global sustainability goals.

The webinar ended with a huge round of applause for the speakers and the teachers thanked both the alumni of the college for giving their precious time. The students enjoyed both the talks greatly.

The flyer and a few pictures have been shared below.
