## Class Test Performance Report

Semesters I, II, IV & VI | Full Marks: 10

### Overview

This report presents a consolidated analysis of the class test results conducted by the Department of Bengali, St. Paul's Cathedral Mission College, across four semesters (Semester I, II, IV, and VI). Each test carried full marks of 10. The report summarises individual student performance, semester-wise averages, and the overall distribution of performance bands across all 19 students who appeared for the tests.

| Total Students | Semesters Covered | Overall Average | Highest Score |
|----------------|-------------------|-----------------|---------------|
| 19             | 4                 | 7.1 / 10        | 9 / 10        |

### Overall Performance Distribution

Combining results from all four semesters, students were grouped into four performance bands based on marks scored out of 10: Excellent (9–10), Very Good (7–8), Good (5–6), and Needs Improvement (below 5). The chart below shows how the 19 students are distributed across these bands.

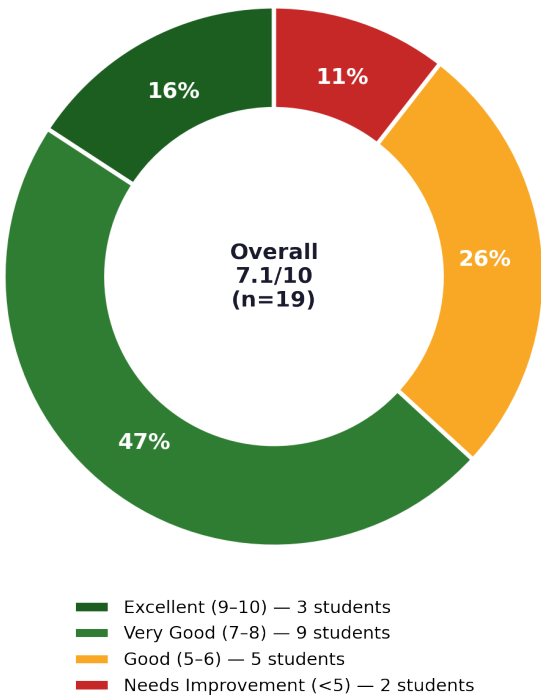

Figure 1: Overall grade-band distribution across all semesters (n = 19).

| 2012     | Tanusree Biswas  | 05          | Good       |

### Key Observations

- The overall average across all four semesters stands at **7.1 out of 10**, indicating a generally healthy grasp of the subject matter among students.
- Semester II recorded the strongest performance, with three students scoring 9 marks and none falling below 7 — the most consistent result set among the four semesters.
- Semester IV showed the widest spread of scores, ranging from 4 to 8, suggesting a need for more targeted attention to the lower-performing students in this cohort.
- Across all semesters, the majority of students (Very Good + Excellent bands) performed at 70% or above, reflecting positive overall engagement with the coursework.

- A small group of students (2 out of 19) scored below 5 marks and may benefit from additional academic support.
